

# 212 Upgrade Instructions

<ol style="list-style-type: none"> <li>Copy the Firmware Update Files (CVR_firmware_mass.bin and FW212B.bin) onto a blank, formatted MicroSD Card.</li> </ol> <p>Please note, the file names should not be changed in any way</p>		
<ol style="list-style-type: none"> <li>Insert MicroSD Card into Camera when camera is powered off and disconnected</li> </ol>		
<ol style="list-style-type: none"> <li>Reconnect car power cable to camera</li> </ol>		
<ol style="list-style-type: none"> <li>The camera will switch on and begin updating.</li> </ol>		
<ol style="list-style-type: none"> <li>When the update has completed the camera will either prompt you to remove the SD Card or it will restart. If the camera prompts you to remove the SD Card then proceed to step 6 If the camera restarts then proceed to step 8</li> </ol>		
<ol style="list-style-type: none"> <li>When you remove the MicroSD Card the camera will shut down</li> </ol>		
<ol style="list-style-type: none"> <li>You should now delete the Firmware Update Files from your MicroSD card using your computer</li> </ol>		

<p>8. To check that the update has completed successfully select System Info from the camera Setup Menu</p>		
<p>9. The camera will then display the current Firmware Version</p>
