

## Firmware Update Instructions (NBDVR522GWA)

The following upgrade instructions are in relation to updating the firmware by copying an update file to the SD card via the supplied USB cable. Our cameras can also be updated via our [My Nextbase Connect](#)® mobile app (Wi-Fi cameras only) and [My Nextbase Player](#)® (NBDVR222 and above).

|  | Windows  | Mac  |
|--|--|--|
| 1. Download the latest version of firmware for the NBDVR522GWA via the Support & Downloads page for your camera.   | <a href="#">Download here</a>  | <a href="#">Download here</a>  |
| 2. The firmware update will be saved to your PC as a file called 'FW522GWA.bin' and can be located within the downloads folder on your computer.<br><b>NOTE: You won't be able to open this file on your PC.</b> | <br>FWXXXX.bin | <br>FWXXXX.bin |
| 3. Right click (CTRL + click if using a mac) on the bin file (FW522GWA.bin) inside the downloads folder and select the option that says 'Copy'   |               |               |
| 4. Go to page 4 of the cameras setup menu and you will see an option to format the SD card. Tap this option.   |              |               |

|   |  |   |
|---|--|---|
| <p>5. Plug the camera into your PC using the supplied USB cable and tap the option that says 'Firmware Update'.</p>   |    |    |
| <p>6. The camera should then appear as a storage device called 'NEXTBASE' within File Explorer (Windows) or Finder (Mac).</p>   |    |    |
| <p>7. Click on your SD card as it appears within File Explorer/ Finder to view inside the card.</p>   |   |   |
| <p>8. Once inside the card, simply right click in the white space and select the option that says 'Paste'. This will copy the file from your downloads folder and place it onto the SD card where it can be read by the camera.</p> |  |  |
| <p>9. Please ensure that the bin file is not renamed in anyway, the update will fail if the file appears as FW522GWA(1).bin for example.</p>  |  |  |
| <p>10. Once you have copied 'FW522GWA.bin' over to the camera you can now unplug it from your PC. It should shut down and you will see the Nextbase logo.</p>   |  |  |

|  |  |   |
|--|--|---|
| <p>11. After the camera has shut down completely, plug it back into your PC and the update should begin automatically.</p>   |  |  |
| <p>12. After the update has installed and your camera has restarted, go back into the setup menu, on page 4 you will see an option that says 'System Info'. If you tap this it will show you the current firmware version.</p> |  |  |
